## How to Book Your Session:

Email me at [pwrnetworkllc@gmail.com](mailto:pwrnetworkllc@gmail.com) with your receipt and preferred session time.

We'll schedule a personalized session to ensure you get the most out of ARTEMISA OF JUSTICE.

We will provide you with a form to send to [pwrnetworkllc@gmail.com](mailto:pwrnetworkllc@gmail.com) so that you can sign up and let us know which part of the flipbook you're most interested in or what stage and/or level you need help in.

Since our current president signed an Executive Order for students in K-18 years to learn artificial intelligence, it's important to note that you can use this SAME flip book to train your children, nieces, and nephews, and their friends on how to use AI the intelligent way—the right way—the preferred way by ARTEMISA of Justice herself. That way no one will lose any sleep, time, or investment over it because you can either learn together, learn at your own pace, or learn in the privacy of your home.

Not everyone can learn in a class situation. Some individuals want quiet so they can concentrate on what they're learning. Other individuals prefer doing it with a buddy, like the buddy system one uses when they're swimming in a pool or in the ocean. And some just like to be surrounded by their friends and adults so if they feel like they're getting it as quickly as the other participants, they can ask their friends and other adults to explain it to them on their level with their vocabulary they are most familiar with and are comfortable hearing and being spoken to them.

Learning a new skill isn't a piece of cake for everyone. Some individuals can nibble at the icing, pick out the goodies, and then consume the rest of the slice of the cake. While others like to eat their icing first and then eat the cake part. While others like to eat their cake and wash it down with some type of liquid: milk, tea, or coffee.

Learning is a choice. A private thing that only you know and understand about yourself is the best way for you to learn new material. It's not a race. It's not a competition. It's what you can absorb and use as you try out these new concepts which aren't quite like what you were used when you were in the third or fourth grade.

Get used to it.

## **And TWO more things.**

For those who want to 'breach writing' consider  
**SATIRE PUNCH ANYONE?**

 **The World Is a Funny Place** Not strange—although for those born in the 1940s, '50s, or '60s, today might feel like *Brave New World: Live! On Ice*. Still, one mustn't let the weirdness keep them from speaking out loud.

And aye, me hearties, there's still a gold-standard method of speaking your mind without being deported, exiled, or shot in the night by the Lone Ranger and Zorro (who, as fate would have it, moonlight as social media moderators). It's called:

**S-A-T-I-R-E.**

As confirmed by most authoritarian regimes, if you color inside the lines of the Ten Commandments, you may ridicule, review,

revise, and even rewrite the sacred cows of your choosing—provided you operate within the moral margins carefully hand-drawn by Artemisa P. Caldwell.

Tantalizing, isn't it? To realize that here in the non-fictional Citadel of Truth, Justice, and the American Dream™, there's still room to grow, enunciate, exhale, and unpack the existential luggage that's been kicking around your spleen.

So gentle writer, if you dare to tread the planks of *Satire Punch Anyone*, take a gander at our pricing below. Learn how to earn while grinning from ear-to-ear, from sea to shining sea, beneath the watchful eye of masked folk heroes and philosophic jesters alike.
